LEANN WANG, FNP-C

Harbor-UCLA Medical Center, USA

I have been working at Harbor UCLA for almost 8 years and have spent half my time in GI. I started as a RN and then transitioned the NP. I am so happy to be apart of AWE. It is amazing to see a group of hard working and dedicated providers provide care, educate and support other women in this special field. I have learned so much in my time in GI and it's wonderful to see that the women in AWE travel abroad to bring their knowledge to teach others and to help provide care for those in need. I'm grateful for the opportunity and look forward to many more.
